

## Overview

Smartphones can be very useful tools for scouts. Applications make smartphones significantly more useful. This document provides a list of applications that could be very handy during the 2013 National Jamboree. Scouts are encouraged to use their devices to record their experience by taking pictures and video, and by keeping a daily journal. In addition, scouts should use their smartphones to extend their social network, make new friends and share their experiences. In addition, there are some very useful utilities that help scouts develop their skills and get the most out of their scouting adventures.

Please note that these applications are all available for the iPhone/iPod Touch, and iPad. Some of these apps will also be available for Android devices, but not necessarily. These apps are only suggestions and not required for any scout or Jamboree participant. In some cases, participants may have other apps that serve their needs better than the ones listed below. Feel free to suggest apps to the rest of the team.

***SPECIAL NOTE: Scouts are NOT required to download any of the apps listed in this document. These are merely suggestions and not requirements.***

## Useful Utility Applications

**Application Name:** Find My iPhone

**Cost:** Free

**Link:** <https://itunes.apple.com/us/app/find-my-iphone/id376101648?mt=8>

**Description:** If you misplace your iPhone, iPad, iPod touch, or Mac, the Find My iPhone app will let you use another iOS device to find it and protect your data. Simply install this free app on another iOS device, open it, and sign in with your Apple ID. Find My iPhone will help you locate your missing device on a map, play a sound, display a message, remotely lock your device, or erase all the data on it.

If the iPhone, iPad, or iPod touch you want to locate is running iOS 6, Find My iPhone also includes Lost Mode. Lost Mode locks your missing device with a 4-digit passcode and can display a contact phone number right on the lock screen. And while in Lost Mode, your device will keep track of where it has been and display its recent location history when you check in with the Find My iPhone app. Please note that Find My iPhone must be enabled in the iCloud settings on your device for you to locate it with this app.

**Application Name:** 5-0 Radio Police Scanner Lite

**Cost:** Free

**Link:** <https://itunes.apple.com/us/app/5-0-radio-police-scanner-lite/id356336433?mt=8>

**Description:** 5-0 Radio Police Scanner Lite by Smartest Apps LLC is a free utilities app that gives you access to the largest collection of live radio streams. Be in the know with instant live access to police, paramedics, firefighters, aircraft, railroad, marine, and even ham radio. Keep the app running and listen to reports in the background. Once you are ready to listen to a station all you have to do is select your country, state/province, and then pick your available station.

While listening to a station, don't forget to make it a favorite if you enjoy it, so you can come back for more later. If you're new to the whole radio scene don't worry as the developers have included a very handy set of codes for police, fire, EMS and military. If

while listening you lose your connection the app will automatically attempt to reconnect, so you don't have to fiddle around to get your spot back.

5-0 Radio Police Scanner Lite was updated to Version 26.0 on April 17, 2012. It has a total of 141,502 customer ratings with an average 3.5 out of five stars. The app has been well received and most people will agree this is one of the better scanner apps; the only complaint seems to be the limited amount of feeds and the reminder that interrupts the feed to let you know it's a free version.

**Application Name:** My-Cast Weather Radar

**Cost:** \$3.99

**Link:** <https://itunes.apple.com/us/app/my-cast-weather-radar/id348779486?mt=8>

**Description:** The award-winning My-Cast app delivers comprehensive yet intuitive weather information specifically for the iPhone and iPod Touch. Uncluttered base maps display animated radar, clouds and StormWatch severe weather alerts allowing effortless interpretation of how the weather affects your day. As you check out the current weather, you may see drifting clouds or falling rain as My-Cast's distinctive weather themes come to life. Whether you are interested in weather for today, tomorrow or next week, My-Cast has you covered. When severe weather strikes, My-Cast transmits the latest alerts direct from the National Weather Service.

The new My-Cast Weather tropical outlook feature provides you with pertinent real-time tropical weather tracking information that you can animate and interact with, not just static images scraped from other websites. Built on Garmin's My-Cast weather network, the My-Cast Weather tropical outlook delivers complete data for both the Atlantic and Eastern Pacific regions.

**Cost:** \$0.99

**Link:** <https://itunes.apple.com/us/app/jamboree-summit-app/id639619900?mt=8>

**Description:** The AT&T-sponsored app, intended for use by participants, staff, and visitors to the 2013 National Scout Jamboree, provides up-to-date information on all programs and activities being held at the Summit this summer. See some screenshots below. Scouts will be able to view their daily schedule of activities, check out a detailed map of the jamboree site, and see where their friends are located at any time. The People portion of the app will assist scouts (and scoutmasters) in locating their troop mates.

There's not much you can actually do with the app right now. But keep in mind that this is Version 1.0, and there are placeholders for many new features. Future releases will add functionality and should prove essential come July, when AT&T lights up the Summit with cell coverage so Scouts can enjoy the most-connected jamboree ever.

**Application Name:** Animated Knots by Grog

**Cost:** \$3.99

**Link:** <https://itunes.apple.com/us/app/animated-knots-by-grog/id376302649?mt=8>

**Application Name:** Museum Guide: Washington, D.C.

**Cost:** \$3.99

**Link:** <https://itunes.apple.com/us/app/museum-guide-washington-d.c./id480765983?mt=8>

**Description:** Because we love museums, we decided to make Museum Guides for people like us who want instant access to the most complete

and up-to-date list of ALL museums in the D.C. area, even the most obscure ones. This app contains links directly to each museum's website, to give you their most current information and help you with your planning. Knowing what's on, how much, when open, and how to get from here to there, you can concentrate on the great stuff.

After visiting the Spirit of St. Louis at the National Air and Space Museum, for example, you may need to know how to get to the Udvar-Hazy center to see the space shuttle Enterprise, or perhaps just find out what special exhibits are showing at the National Gallery of Art across the mall. Maybe you've got a little extra time on your trip and want to find out what nearby museums are open or have a café. That's where the Museum Guide comes in!

With the Museum Guide, you'll get instant access to all the information you need to plot your adventure but dread hassling with, whether you're a visitor or a native, on foot or on mass transit. And with this app, you're not only getting the Museum Guide to Washington, D.C., you'll also be notified as soon as Guides to the museums of other world-class cities are released.

By browsing the links to museums for current exhibitions, you can plan your trip, hone your agenda, and map out your route. Whether you're preparing in advance or need info on the spot, with the Museum Guide you'll know if your destination is within easy walking distance or which bus or train to take, where to catch it, and when.

Features:

- Museums are listed alphabetically and by category, or on an interactive map
- View each museum's website to find information on current, future, and ongoing exhibitions, symposia and lectures, as well as hours and other information
- Tap on an address to display a detailed map with a pin for that museum
- Get directions for walking, driving, or public transportation from your current location or any other location
- See what's nearby by viewing your location on the map
- Create and tailor a list of your favorites and view them on an interactive map

**Cost:** \$2.99

**Link:** <https://itunes.apple.com/us/app/museum-guide-washington-d.c./id480765983?mt=8>

**Description:** The National Mall app is designed to increase your enjoyment of the National Mall by quickly orienting you to the most popular features and points of interest.

The National Mall is more than 1,000 acres of parkland located in the center of Washington DC. The National Mall is the focus of most sightseeing visits to the national capital area. Experience the history of our nation. The National Mall features more than 80 historic structures and over 150 major named historic parks, squares, circles and triangles. The National Mall is lined by more than 2,000 American elms, and 3,000 internationally-renowned Japanese Cherry Trees. Gardens that are botanical showplaces displays thousands of tulips, pansies and annuals on over 170 flower beds, and 35 ornamental pools and fountains range from the simple to the sublime. But more than gardens and memorials, the mall contains 43 ball fields for softball, rugby, field hockey, volleyball and even polo. In the Spring the Mall is covered by the light and beautiful Cherry Blossoms, on the 4th of July the Mall play host to the incomparable fireworks display and at Christmas the National Christmas Tree.

Organized by Tours all of the most popular Memorials, Museums and public buildings are featured. Once you determine what Tour you wish to use to explore the National Mall, you are presented with all buildings or points of interest that match your request. If you want to customize your Tour; Push the Adjust Tour Button and check off the items you want to see. Push Done Adjusting and your revised list of points of interest is shown. The Tour is sorted; with the closest point of interest shown first. As you walk the National Mall, detailed information on each building or point of interest is shown. A pull down audio player lets you listen to a narration of each point on the walk. You can play embedded videos for further information. You may view all selected points of interest either as a list or as a Map. In the Map Mode you will see all points of interest graphically displayed. Zoom on the Map.

The National Mall App pulls from a data base that is constantly being updated with what is hot for that time period. Be sure to regularly check back to get the latest information on current events.

The App provides the latest information on access requirements, hours of operations, and similar information. Your experience will be greatly enhanced if you refer to the embedded User Guide prior to your first use.

If you want to get point to point directions; select the point of interest and then select Directions. Walking or Driving Directions are presented: NOTE: Directions take you outside of the National Mall App, if you have developed a custom Tour you will lose you Tour and must re-enter the app.

We acknowledge and credit the National Park Service for information used in the development of this App. The use of public domain information does not and should not be construed to be an endorsement of this App by the National Park Service.
